

NEW POSITION

R&D Technician

- Leading the Next Frontier of Gut Health

Nimble Science is leading the world in the next frontier of microbiome informatics. By partnering with industry leaders around the world and leveraging our first-in-kind capsule-based sampling technology we are dedicated uncovering the full potential of the small intestine.

This is a hands-on position that involves performing and reporting on device assembly and benchtop testing to support the departments of Manufacturing, Product Development, and Lab Services.

You are a passionate and dynamic learner with an entrepreneurial spirit ready to dedicate yourself to taking Nimble Science and the human microbiome field to the next level.

RESPONSIBILITIES:

The R&D Technician will be selected to support the team in the following ways:

- Manufacturing tasks under ISO 13485:2016 production line
- Hands on production of prototype devices
- Product receiving and inspection, inventory tracking
- Conducting verification and validation testing in accordance with approved protocols
- Clinical sample processing (specialized)
- Techniques in molecular and microbiology including quantitative Polymerase Chain Reaction (qPCR), traditional PCR, metabolomic and proteomic sample preparation, microbe culturing in aerobic and anaerobic conditions
- Data analysis and report writing
- Maintaining records and documentation
- Conduct literature review, data analysis and report writing
- Controlled goods receiving and inspection, wet lab inventory tracking

QUALIFICATIONS:

- You **are currently pursuing** a post secondary degree in Engineering or Sciences
- Preferred: You have experience with common microbiology lab techniques (growing cultures, working in a biosafety cabinet or laminar flow hood etc.)
- Preferred: Experience with assembly and/or manufacturing
- You enjoy and excel at hands on work
- You are process oriented and diligent in your work
- Accuracy may be your middle name

NEW POSITION
R&D Technician
- Leading the Next Frontier of Gut Health

You are a leader, a team player, an innovator and a problem solver.

Position Details:

- Position is full time (required availability from 9-5pm)
- On site, Calgary AB

Application Process

Interviews can start immediately and will continue until the position is filled.

Apply directly with a Cover Letter stating your interest and how previous experience can help you quickly learn the needed skills.

Send cover letter and resume to
